

Data Acquisition Networks – Accessing Your System

1. Open “Internet Explorer”
2. Type www.danmonitoring.com in the address bar and hit GO or press Enter. You will be sent to site below;

The screenshot shows the homepage of the DAN monitoring website. The browser window title is "Cannot find server - Microsoft Internet Explorer". The address bar shows "http://www.danmonitoring.com/". The website header includes "Home | Login | Contact Us" and a banner for "Powerful Web Based Data Logging Solutions". A navigation menu on the left lists: Home, About Us, Applications, Info Request, Library, Distributors, FAQs, and Contact. The main content area features several key features:

- DAN SENTRY** is a unique protector and defender of your process or installation and a lot more too.
- LOW COST, SECURE, EASY TO USE, RELIABLE**
- ALARM** messages are sent to any or all of 5 mobile phones and 5 email addresses.
- MONITOR** instant data sent to your mobile phone on request.
- TREND** the measurements. All data is date and time stamped, tabulated and graphed in our secure DATA VAULT.
- PROTECT** your business. DAN SENTRY will take immediate corrective action on site in response to alarm conditions.
- SECURE REMOTE ACCESS** of your data from any web-enabled computer.
- NO ADDITIONAL SERVERS ON SITE** DAN provides mirrored servers in two locations for total reliability and security. You don't need to worry about maintaining a secure server with UPS and 24/7 technical backup.
- NO SOFTWARE TO BUY OR MAINTAIN.** DAN provides you with full access to our own easy to use software via your web browser.

A diagram illustrates the system architecture: "What you need to monitor" (Process) feeds into the "DAN DATA CONTROL CENTRE", which provides "Local Control". The centre also connects to "Mobile access sms alarms & instant data" (via a mobile phone), "Secure website sends alarms, monitors, tabulates & trends" (via a laptop), and "Website access from any PC" (via a desktop PC). The footer contains "2006 © Copyright Data Acquisition Networks Pty Ltd. All rights reserved." and "Designed by ArtAttack".

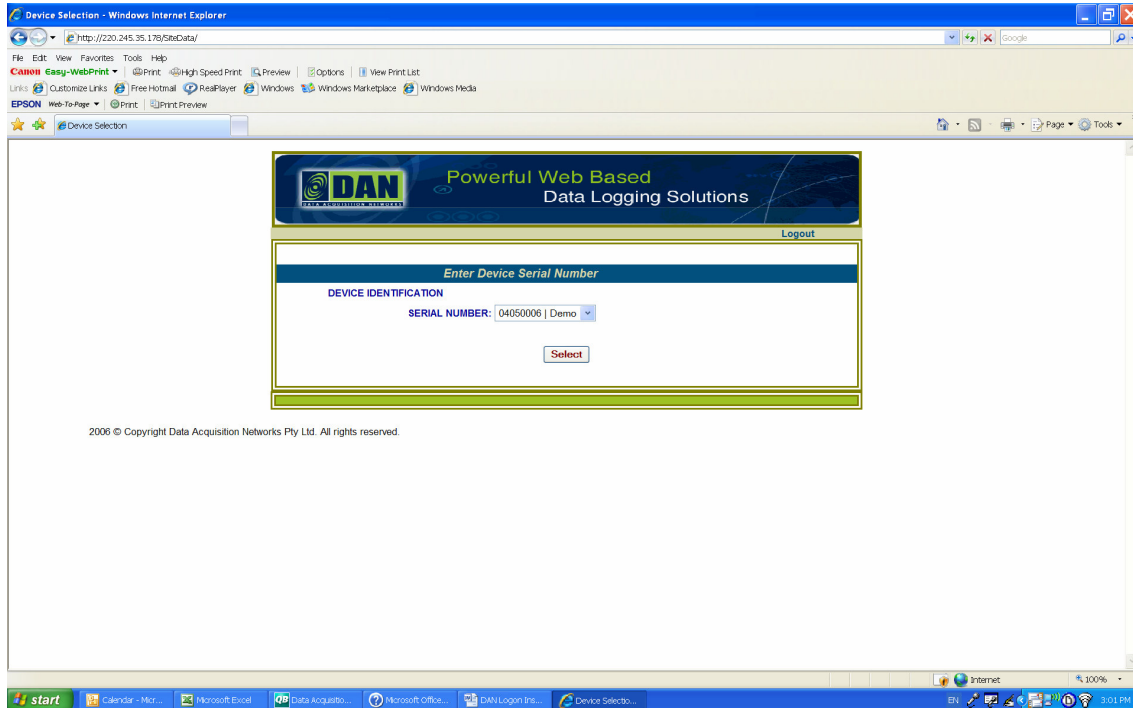

3. Click on “Login” button you will be sent to site with a screen as below;

The screenshot shows the login page of the DAN monitoring website. The browser window title is "Login Page - Windows Internet Explorer". The address bar shows "C:\Documents and Settings\Bruce Davis\My Documents\AA Login Page.htm". The website header is identical to the homepage. The main content area features a "Login Page" form with the following fields:

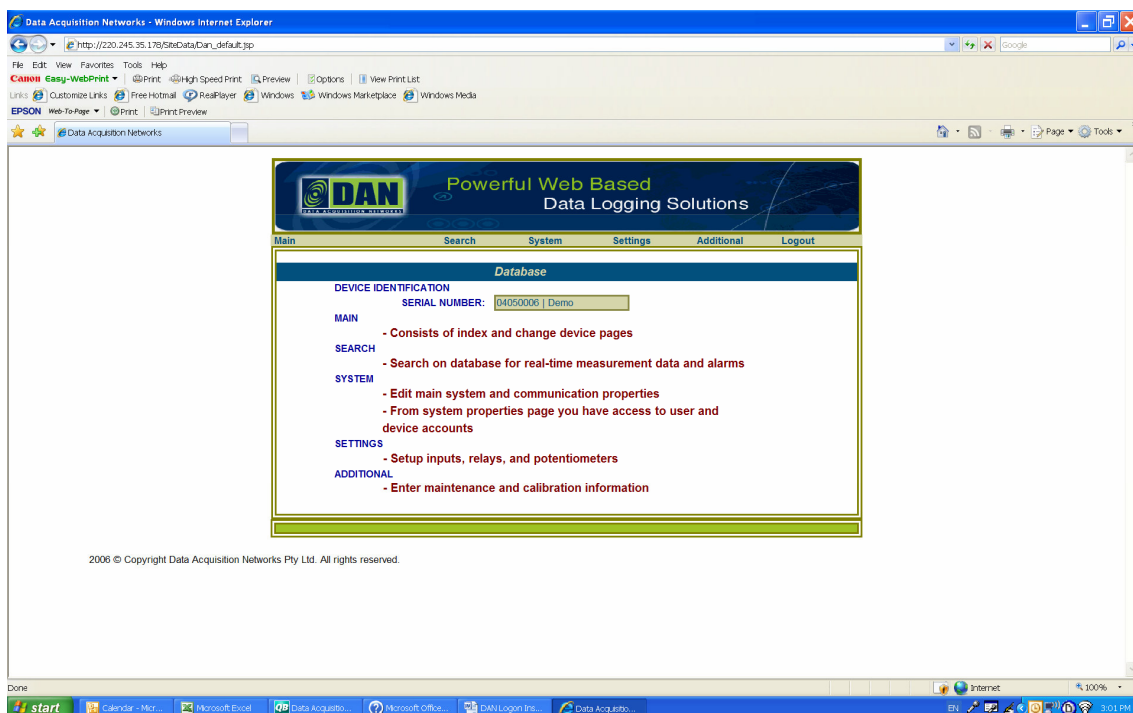

- Group Name:
- User ID:
- Password:

Below the fields is a "Login" button. A "LOGIN REQUIRED:" message is displayed at the bottom of the form. The footer contains "2006 © Copyright Data Acquisition Networks Pty Ltd. All rights reserved." The taskbar at the bottom shows several open applications, including "Data Acquisition Networks Pty Ltd.", "Login Page - W...", "Microsoft Office...", and "DAN Login In...".

4. Enter the “Group Name” provided.
