

DAN – Accessing Your System

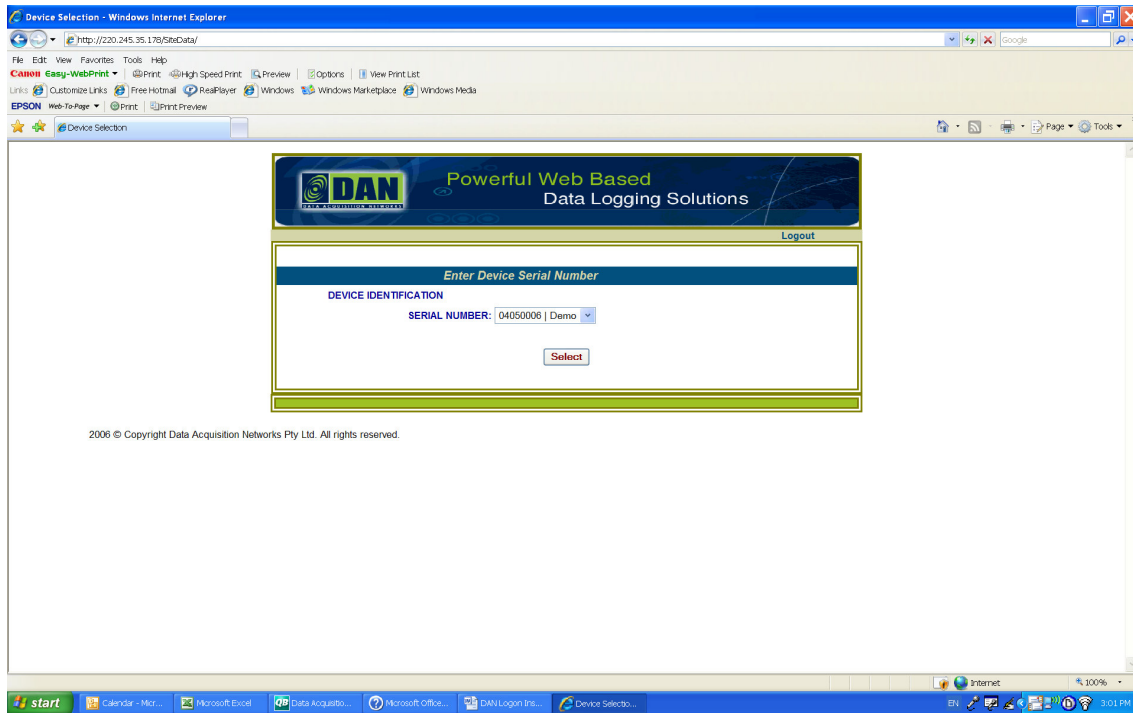

1. Open “Internet Explorer”
2. Type www.danmonitoring.com in the address bar and hit GO or press Enter.
You will be sent to site below;

The screenshot shows the DAN website homepage in Microsoft Internet Explorer. The browser title is "Cannot find server - Microsoft Internet Explorer". The address bar shows "http://www.danmonitoring.com/". The website features a navigation menu on the left with links for Home, About Us, Applications, Info Request, Library, Distributors, FAQ's, and Contact. The main content area includes a header with the DAN logo and the text "Powerful Web Based Data Logging Solutions". Below the header, there is a section titled "DAN SENTRY is a unique protector and defender of your process or installation and a lot more too". This section lists several key features: "LOW COST, SECURE, EASY TO USE, RELIABLE", "ALARM messages are sent to any or all of 5 mobile phones and 5 email addresses.", "MONITOR instant data sent to your mobile phone on request.", "TREND the measurements. All data is date and time stamped, tabulated and graphed in our secure DATA VAULT.", "PROTECT your business. DAN SENTRY will take immediate corrective action on site in response to alarm conditions.", "SECURE REMOTE ACCESS of your data from any web-enabled computer.", "NO ADDITIONAL SERVERS ON SITE DAN provides mirrored servers in two locations for total reliability and security. You don't need to worry about maintaining a secure server with UPS and 24/7 technical backup.", and "NO SOFTWARE TO BUY OR MAINTAIN. DAN provides you with full access to our own easy to use software via your web browser." A diagram on the right side of the page illustrates the system architecture, showing a "DAN DATA CONTROL CENTRE" connected to a "Local Control" unit, with arrows indicating data flow between the centre and various devices like a mobile phone, a laptop, and a server rack. The footer of the page contains the copyright notice "2006 © Copyright Data Acquisition Networks Pty Ltd. All rights reserved." and the text "Designed by AdAttack".

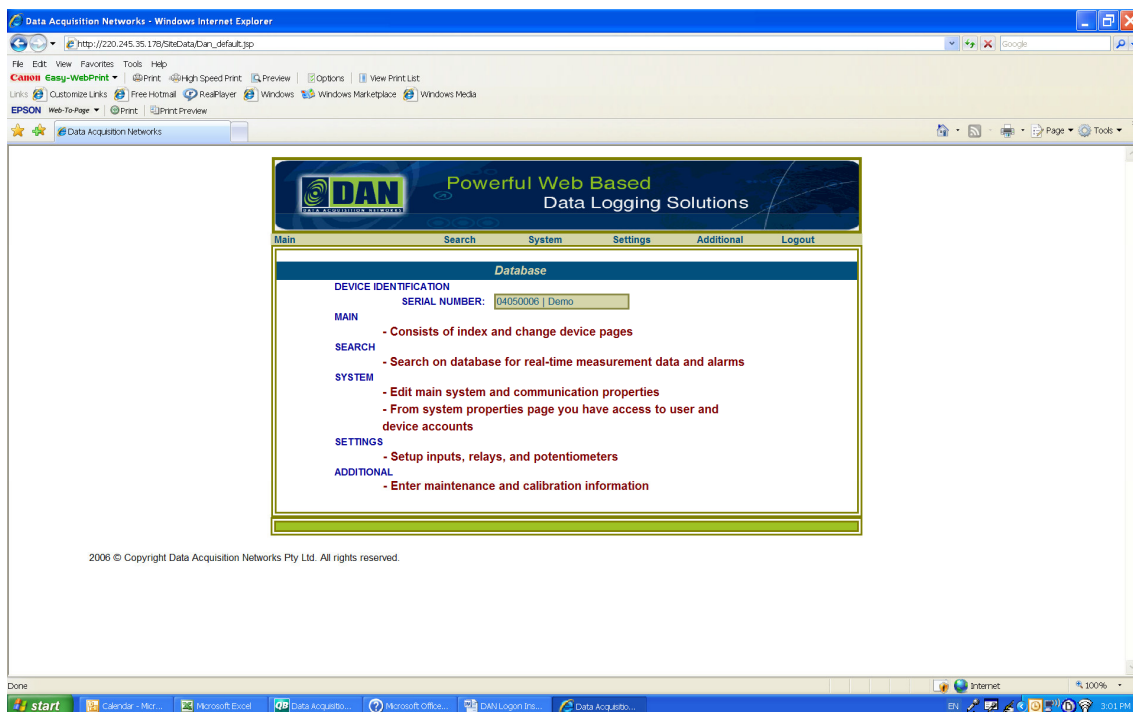

3. Click on “Login” button you will be sent to the site with a screen as below;

The screenshot shows the DAN website login page in Windows Internet Explorer. The browser title is "Login Page - Windows Internet Explorer". The address bar shows "C:\Documents and Settings\Bruce Davis\My Documents\AA Login Page.htm". The website features a navigation menu on the left with links for Home, Applications, Info Request, Library, Distributors, FAQ's, and Contact. The main content area includes a header with the DAN logo and the text "Powerful Web Based Data Logging Solutions". Below the header, there is a section titled "Login Page" with a form containing three input fields: "Group Name:", "User ID:", and "Password:". Below the form is a "Login" button. The text "LOGIN REQUIRED:" is displayed below the form. The footer of the page contains the copyright notice "2006 © Copyright Data Acquisition Networks Pty Ltd. All rights reserved." and the text "Designed by AdAttack".

4. Enter the "Group Name" provided, then enter the "User ID" provided in the respective windows.
