# The DAN Website

Table Set Up

DE20

INDEX

LOGIN

Refer 'DAN – ACCESSING YOUR SYSTEM'

Once you have successfully logged onto your system on the DAN website, the index can be found across the top of the page, below the blue banner. A detailed explanation of each index item is provided below. To return to the 'main' index from a sub index place your cursor over the word 'main' and select 'Index'

IMPORTANT NOTES:

1. These notes cover the operational aspects of the DAN web site.
2. When **ANY** change is made to a page it is necessary to scroll to the bottom of the page and **submit** the change. Once accepted by the DAN server you will be required to click **'OK'** to confirm the change.
3. SMS Messages will only be sent if the facility has been activated (refer – communication setup).
4. Any shaded field cannot be changed.
5. The maximum allowable number of characters that may be entered into any SMS message window is 98.
6. Search procedures are detailed for standard search facilities (Data and Alarm). Other search procedures follow the same pattern and may change from time to time.

INTRODUCTION – TABLES SET UP

There are a number of tables to be set up in this section. Each may be accessed by scrolling down the page:

- User Password Table
- Breakfast Product Table
- Lunch Dinner Product Table
- Despatch Table
- Receivables Table

The Tables page is found by passing your cursor over the 'Settings' item and clicking on the drop down for 'Tables'. The tables are arranged on one page. The examples used here are typical of food HACCP requirements and are used demonstrate set up in principal. Table names and sizes may be altered depending on the application. (Refer to DE20 Table set up)

SETTINGS – Tables – User Password Table
